

DEAR DOG OWNERS: THAT'S WHY DOGS ARE NOT ALLOWED HERE

We know how much your four-legged friends are part of the family and we completely understand that you like to have them with you everywhere you go. That's why we're especially sorry to say that dogs are not allowed in our **WOODPRINT Café**.

Why we made this decision:

Our café also serves as a **real wood exhibition**. Real wood is sensitive to odors and moisture and, unfortunately, dogs have repeatedly marked the trees in the past. The wood permanently absorbs this odor, which we can neither remove nor mask. To protect our exhibition and at the same time offer all guests a pleasant atmosphere, we had to make this decision.

Please understand: We don't want to exclude dog lovers — quite the opposite! Right in front of the café, you'll find **shaded areas** where you can leash your dog, and our team will be happy to provide your four-legged friend with **fresh water** in a bowl at any time. This way, you can relax and enjoy your coffee while your dog is in good hands.

We really hope for your understanding and look forward to welcoming you. Whether you bring your furry friend along or not.

Warm regards,
Your WOODPRINT Café Team
